## NOTES TO FINANCIAL STATEMENTS FEBRUARY 28, 2026 (UNAUDITED)

### 1. ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES

The RBB Fund Trust, (the “Trust”) was organized as a Delaware statutory trust on August 29, 2014, and is registered under the Investment Company Act of 1940, as amended (the “1940 Act”), as an open-end management investment company. The Trust is a “series fund,” which is an investment company divided into separate portfolios. Each portfolio is treated as a separate entity for certain matters under the 1940 Act, and for other purposes, and a shareholder of one portfolio is not deemed to be a shareholder of any other portfolio. Currently, the Trust has sixteen active investment portfolios, including the P/E Global Enhanced International Fund (the “Fund”), which commenced investment operations on December 29, 2022. The Fund is authorized to offer three classes of shares, Institutional Class, Investor Class, and Class A Shares. Investor Class Shares and Class A Shares have not yet commenced operations as of August 31, 2025.

The investment objective of the Fund is to seek total return.

The Fund is an investment company and follows accounting and reporting guidance in the Financial Accounting Standards Board (“FASB”) Accounting Standards Codification Topic 946 “Financial Services - Investment Companies.”

The end of the semi-annual reporting period for the Fund is February 28, 2026 (the “current fiscal period”).

**PORTFOLIO VALUATION** — The Fund values its investments at fair value. The Fund's net asset value (“NAV”) is calculated once daily at the close of regular trading hours on the New York Stock Exchange (“NYSE”) (generally 4:00 p.m. Eastern Time) on each day the NYSE is open. Securities held by the Fund are valued using the closing price or the last sales price on a national securities exchange or the National Association of Securities Dealers Automatic Quotation System (“NASDAQ”) market system where they are primarily traded. Fixed income securities are valued using an independent pricing service, which considers factors such as security prices, yields, maturities and ratings, and are deemed representative of market values at the close of the market. Investments in other open-end investment companies are valued based on the NAV of those investment companies (which may use fair value pricing as discussed in their prospectuses). Forward currency exchange contracts are valued by interpolating between spot and forward currency rates as quoted by an independent pricing service. Futures contracts are generally valued using the settlement price determined by the relevant exchange. If market quotations are unavailable or deemed unreliable, securities will be valued by the Valuation Designee (as defined below) in accordance with procedures adopted by the Trust's Board of Trustees (the “Board”). Relying on prices supplied by pricing services or dealers or using fair valuation may result in values that are higher or lower than the values used by other investment companies and investors to price the same investments.

The Board has adopted a pricing and valuation policy for use by the Fund and its Valuation Designee (as defined below) in calculating the Fund's NAV. Pursuant to Rule 2a-5 under the 1940 Act, the Fund has designated P/E Global LLC, the Fund's investment adviser (the “Adviser”), as its “Valuation Designee” to perform all of the fair value determinations, as well as to perform all of the responsibilities that may be performed by the Valuation Designee in accordance with Rule 2a-5. The Valuation Designee is authorized to make all necessary determinations of the fair values of portfolio securities and other assets for which market quotations are not readily available or if it is deemed that the prices obtained from brokers and dealers or independent pricing services are unreliable.

**FAIR VALUE MEASUREMENTS** — The inputs and valuation techniques used to measure the fair value of the Fund's investments are summarized into three levels as described in the hierarchy below:

- Level 1 – Prices are determined using quoted prices in active markets for identical securities.
- Level 2 – Prices are determined using other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.).
- Level 3 – Prices are determined using significant unobservable inputs (including the Fund's own assumptions in determining the fair value of investments).

The inputs or methodologies used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

## NOTES TO FINANCIAL STATEMENTS (CONTINUED) FEBRUARY 28, 2026 (UNAUDITED)

The following is a summary of the inputs used, as of the end of the reporting period, in valuing the Fund's investments carried at fair value:

	<u>LEVEL 1</u>	<u>LEVEL 2</u>	<u>LEVEL 3</u>	<u>TOTAL</u>
Exchange Traded Funds . . . . .	\$ 31,308,770	\$ —	\$ —	\$ 31,308,770
Foreign Currency Contracts				
Futures Contracts . . . . .	57,516	—	—	57,516
Equity Contracts				
Futures Contracts . . . . .	425,860	—	—	425,860
<b>Total Assets</b>	<u>\$ 31,792,146</u>	<u>\$ —</u>	<u>\$ —</u>	<u>\$ 31,792,146</u>
	<u>LEVEL 1</u>	<u>LEVEL 2</u>	<u>LEVEL 3</u>	<u>TOTAL</u>
Foreign Currency Contracts				
Futures Contracts . . . . .	\$ (1,745,721)	\$ —	\$ —	\$ (1,745,721)
<b>Total Liabilities</b>	<u>\$ (1,745,721)</u>	<u>\$ —</u>	<u>\$ —</u>	<u>\$ (1,745,721)</u>

Refer to the Schedule of Investments for further disaggregation of investment categories.

Due to the inherent uncertainty of determining the fair value of investments that do not have a readily available market value, the fair value of the Fund's investments may fluctuate from period to period. Additionally, the fair value of investments may differ significantly from the values that would have been used had a ready market existed for such investments and may differ materially from the values the Fund may ultimately realize. Further, such investments may be subject to legal and other restrictions on resale or otherwise less liquid than publicly traded securities.

For fair valuations using significant unobservable inputs, U.S. generally accepted accounting principles ("U.S. GAAP") requires the Fund to present a reconciliation of the beginning to ending balances for reported market values that presents changes attributable to total realized and unrealized gains or losses, purchase and sales, and transfers in and out of Level 3 during the current fiscal period. Transfers in and out between levels are based on values at the end of the current fiscal period. A reconciliation of Level 3 investments is presented only when the Fund had an amount of Level 3 investments at the end of the reporting period that was meaningful in relation to its net assets. The amounts and reasons for Level 3 transfers are disclosed if the Fund had an amount of total transfers during the reporting period that was meaningful in relation to its net assets as of the end of the reporting period.

During the current fiscal period, the Fund had no Level 3 transfers.

**DISCLOSURES ABOUT DERIVATIVE INSTRUMENTS AND HEDGING ACTIVITIES** — Derivative instruments are defined as financial instruments whose value and performance are based on the value and performance of another security or financial instrument. Derivative instruments that the Fund used during the current fiscal period include futures contracts.

During the current fiscal period, the Fund used long and short contracts on U.S. equity market indices and foreign currencies to gain investment exposure in accordance with its investment objective.

The following tables provide quantitative disclosures about fair value amounts of, and gains and losses on, the Fund's derivative instruments as of and for the current fiscal period.

## NOTES TO FINANCIAL STATEMENTS (CONTINUED) FEBRUARY 28, 2026 (UNAUDITED)

**USE OF ESTIMATES** — The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the current fiscal period. Actual results could differ from those estimates and those differences could be significant.

**INVESTMENT TRANSACTIONS, INVESTMENT INCOME AND EXPENSES** — The Fund records security transactions based on trade date for financial reporting purposes. The cost of investments sold is determined by use of the specific identification method for both financial reporting and income tax purposes in determining realized gains and losses on investments. Interest income (including amortization of premiums and accretion of discounts) is accrued when earned. Dividend income is recorded on the ex-dividend date. Distributions received on securities that represent a return of capital or capital gain are recorded as a reduction of cost of investments and/or as a realized gain. The Fund's investment income, expenses (other than class specific expenses) and unrealized and realized gains and losses are allocated daily to each class of shares based upon the relative proportion of net assets of each class at the beginning of the day. Certain expenses are shared with The RBB Fund, Inc. ("RBB"), a series trust of affiliated funds. Expenses incurred on behalf of a specific class, fund or fund family of the Trust or RBB are charged directly to the class, fund or fund family (in proportion to net assets). Expenses incurred for all funds (such as director or professional fees) are charged to all funds in proportion to their average net assets of the Trust and RBB or in such other manner as the Board deems fair or equitable. Expenses and fees, including investment advisory and administration fees, are accrued daily and taken into account for the purpose of determining the NAV of the Fund.

**DIVIDENDS AND DISTRIBUTIONS TO SHAREHOLDERS** — Dividends from net investment income and distributions from net realized capital gains, if any, are declared and paid at least annually to shareholders and recorded on the ex-dividend date. Income dividends and capital gain distributions are determined in accordance with U.S. federal income tax regulations, which may differ from U.S. GAAP.

**U.S. TAX STATUS** — No provision is made for U.S. income taxes as it is the Fund's intention to continue to qualify for and elect the tax treatment applicable to regulated investment companies under Subchapter M of the Internal Revenue Code of 1986, as amended, and make the requisite distributions to its shareholders which will be sufficient to relieve it from U.S. income and excise taxes.

**SEC RULE 18f-4** — Rule 18f-4 under the 1940 Act ("Rule 18f-4") provides for the regulation of a registered investment company's use of derivatives and certain related instruments. Among other things, Rule 18f-4 limits a fund's derivatives exposure through a value-at-risk test and requires the adoption and implementation of a derivatives risk management program for certain derivatives users. The Fund, as a full derivatives user (as defined in Rule 18f-4), is subject to the full requirements of Rule 18f-4. The Fund is required to comply with Rule 18f-4 and has adopted procedures for investing in derivatives and other transactions in compliance with Rule 18f-4.

**FUTURES CONTRACTS** — The Fund uses futures contracts in the normal course of pursuing its investment objective. Upon entering into a futures contract, the Fund must deposit initial margin in addition to segregating cash or liquid assets sufficient to meet its obligation to purchase or provide securities or to pay the amount owed at the expiration of an index-based futures contract. Such liquid assets may consist of cash, cash equivalents, liquid debt or equity securities or other acceptable assets. Pursuant to the futures contract, the Fund agrees to receive from, or pay to the broker, an amount of cash equal to the daily fluctuation in the value of the contract. Such a receipt of payment is known as "variation margin" and is recorded by the Fund as an unrealized gain or loss. When the contract is closed, the Fund records a realized gain or loss equal to the difference between the proceeds from (or cost of) the closing transactions and the Fund's basis in the contract. Futures contracts have market risks, including the risk that the change in the value of the contract may not correlate with changes in the value of the underlying securities. Use of long futures contracts subjects the Fund to risk of loss in excess of the amount shown on the Statement of Assets and Liabilities, up to the notional value of the futures contract. Use of short futures contracts subjects the Fund to unlimited risk of loss.

**COMMODITY SECTOR RISK** — Exposure to the commodities markets may subject the Fund to greater volatility than investments in traditional securities. The value of commodity-linked derivative instruments may be affected by

# P/E GLOBAL ENHANCED INTERNATIONAL FUND

## NOTES TO FINANCIAL STATEMENTS (CONTINUED) FEBRUARY 28, 2026 (UNAUDITED)

changes in overall market movements, commodity index volatility, changes in interest rates or factors affecting a particular industry or commodity, such as drought, floods, weather, livestock disease, embargoes, tariffs and international economic, political and regulatory developments. The prices of energy, industrial metals, precious metals, agriculture and livestock sector commodities may fluctuate widely due to factors such as changes in value, supply and demand and governmental regulatory policies. The commodity-linked securities in which the Fund invests may be issued by companies in the financial services sector, and events affecting the financial services sector may cause the Fund's share value to fluctuate.

**FOREIGN CURRENCY TRANSLATION** — Assets and liabilities initially expressed in non-U.S. currencies are translated into U.S. dollars based on the applicable exchange rates at the date of the last business day of the financial statement period. Purchases and sales of securities, interest income, dividends, variation margin received and expenses denominated in foreign currencies are translated into U.S. dollars at the exchange rates in effect on the transaction date. The Fund does not separately report the effect of changes in foreign exchange rates from changes in market prices of securities held. Such changes are included with the net realized gain or loss and change in unrealized appreciation or depreciation on investments in the Statement of Operations. Other foreign currency transactions resulting in realized and unrealized gain or loss are reported separately as net realized gain or loss and change in unrealized appreciation or depreciation on foreign currencies in the Statement of Operations.

**CURRENCY RISK** — Investment in foreign securities involves currency risk associated with securities that trade or are denominated in currencies other than the U.S. dollar and which may be affected by fluctuations in currency exchange rates. An increase in the strength of the U.S. dollar relative to a foreign currency may cause the U.S. dollar value of an investment in that country to decline. Foreign currencies also are subject to risks caused by inflation, interest rates, budget deficits and low savings rates, political factors and government controls. Forward foreign currency exchange contracts may limit potential gains from a favorable change in value between the U.S. dollar and foreign currencies. Unanticipated changes in currency pricing may result in poorer overall performance for the Fund than if it had not engaged in these contracts.

**FOREIGN SECURITIES MARKET RISK** — A substantial portion of the trades of the Fund are expected to take place on markets or exchanges outside the U.S. There is no limit to the amount of assets of the Fund that may be committed to trading on foreign markets. The risk of loss in trading foreign futures and options on futures contracts can be substantial. Participation in foreign futures and options on futures contracts involves the execution and clearing of trades on, or subject to the rules of, a foreign board of trade or exchange. Some of these foreign markets, in contrast to U.S. exchanges, are so-called "principals' markets" in which performance is the responsibility only of the individual counterparty with whom the trader has entered into a commodity interest transaction and not of the exchange or clearing corporation. In these kinds of markets, there is risk of bankruptcy or other failure or refusal to perform by the counterparty.

**COUNTERPARTY RISK** — The derivative contracts entered into by the Fund or its subsidiary may be privately negotiated in the over-the-counter market. These contracts also involve exposure to credit risk, since contract performance depends in part on the financial condition of the counterparty. Relying on a counterparty exposes the Fund to the risk that a counterparty will not settle a transaction in accordance with its terms and conditions because of a dispute over the terms of the contract (whether or not bona fide) or because of a credit or liquidity problem, thus causing the Fund to suffer a loss. If a counterparty defaults on its payment obligations to the Fund, this default will cause the value of an investment in the Fund to decrease.

**CREDIT RISK** — Credit risk refers to the possibility that the issuer of the security or a counterparty in respect of a derivative instrument will not be able to satisfy its payment obligations to the Fund when due. Changes in an issuer's credit rating or the market's perception of an issuer's creditworthiness may also affect the value of the Fund's investment in that issuer. Securities rated in the four highest categories by the rating agencies are considered investment grade but they may also have some speculative characteristics. Investment grade ratings do not guarantee that bonds will not lose value or default. In addition, the credit quality of securities may be lowered if an issuer's financial condition changes.

**U.S. GOVERNMENT SECURITIES** — The Fund may invest in U.S. government securities. Securities issued or guaranteed by the U.S. government or its agencies or instrumentalities include U.S. Treasury securities, which are backed by the full faith and credit of the U.S. Treasury and which differ only in their interest rates, maturities, and times of issuance. U.S. Treasury bills have initial maturities of one year or less; U.S. Treasury notes have initial maturities of one to ten years; and U.S. Treasury bonds generally have initial maturities of greater than ten years. Certain U.S. government securities are issued or guaranteed by agencies or instrumentalities, of the U.S. government including, but not limited to, obligations of U.S. government agencies or instrumentalities, such as Fannie Mae, Freddie Mac, Ginnie Mae, the Small Business Administration, the Federal Farm Credit Administration, the Federal Home Loan Banks, Banks for Cooperatives (including the Central Bank for Cooperatives), the Federal Land Banks, the Federal Intermediate Credit Banks, the Tennessee Valley Authority, the Export-Import Bank of the United States, the Commodity Credit Corporation, the Federal Financing Bank, the Student Loan Marketing Association, the National Credit Union Administration and the Federal Agricultural Mortgage Corporation (Farmer Mac).

Some obligations issued or guaranteed by U.S. government agencies and instrumentalities, including, for example, Ginnie Mae pass-through certificates, are supported by the full faith and credit of the U.S. Treasury. Other obligations issued by or guaranteed by federal agencies, such as those securities issued by Fannie Mae, are supported by the discretionary authority of the U.S. government to purchase certain obligations of the federal agency, while other obligations issued by or guaranteed by federal agencies, such as those of the Federal Home Loan Banks, are supported by the right of the issuer to borrow from the U.S. Treasury. While the U.S. government provides financial support to such U.S. government-sponsored federal agencies, no assurance can be given that the U.S. government will always do so, since the U.S. government is not so obligated by law. U.S. Treasury notes and bonds typically pay coupon interest semi-annually and repay the principal at maturity.

**CASH AND CASH EQUIVALENTS** — Cash and cash equivalents are valued at cost plus accrued interest, which approximates market value.

**OTHER** — In the normal course of business, the Fund may enter into contracts that provide general indemnifications. The Fund's maximum exposure under these arrangements is dependent on claims that may be made against the Fund in the future, and, therefore, cannot be estimated; however, the Fund expects the risk of material loss from such claims to be remote.

**OPERATING SEGMENTS** — are components of an entity that engage in business activities and have discrete financial information available. Each series of the Trust operates in one segment. The segment derives its revenues from each series' investments made in accordance with the defined investment strategy of each series, as prescribed in the Fund's prospectus. The Chief Operating Decision Maker ("CODM") of the Fund is the Investment Committee of the Adviser. When assessing segment performance and making decisions about segment resources, the CODM relies on the Fund's portfolio composition, total returns, expense ratios and changes in net assets which are consistent with the information contained in the Fund's financial statement. Segment assets, liabilities, income, and expenses are also detailed in the accompanying financial statements.

## 2. INVESTMENT ADVISER AND OTHER SERVICES

P/E Global LLC serves as the investment adviser to the Fund. The Fund compensates the Adviser for its services at an annual rate of 0.95% based on the Fund's average daily net assets (the "Advisory Fee"), payable on a monthly basis in arrears.

The Adviser has contractually agreed to waive advisory fees and/or reimburse expenses to the extent that total annual Fund operating expenses (excluding certain items discussed below) exceed the 1.00% ("Expense Cap") of the Fund's average daily net assets. In determining the Adviser's obligation to waive advisory fees and/or reimburse expenses, the following expenses are not taken into account and could cause total annual Fund operating expenses to exceed the Expense Cap as applicable: acquired fund fees and expenses, brokerage commissions, extraordinary

expenses, interest and taxes. This contractual limitation is in effect until December 31, 2026 and may not be terminated without the approval of the Board.

If at any time the Fund's total annual Fund operating expenses for a year are less than the Expense Cap, the Adviser is entitled to reimbursement by the Fund of the advisory fees forgone and other payments remitted by the Adviser to the Fund within three years from the date on which such waiver or reimbursement was made, provided such reimbursement does not cause the Fund's ordinary operating expenses to exceed (i) the expense limitations that were in effect at the time of the waiver or reimbursement and (ii) the current expense limit in effect at the time of the reimbursement.

As of the end of the current fiscal period, the Fund had amounts available for recoupment as follows:

FUND	EXPIRATION AUGUST 31				TOTAL
	2026	2027	2028	2029	
P/E Global Enhanced International Fund . . .	\$ 183,432	\$ 248,469	\$ 168,772	\$ 133,000	\$ 733,673

U.S. Bancorp Fund Services, LLC, doing business as U.S. Bank Global Fund Services ("Fund Services"), serves as administrator for the Fund. For providing administrative and accounting services, Fund Services is entitled to receive a monthly fee, subject to certain minimum and out of pocket expenses.

Fund Services serves as the Fund's transfer and dividend disbursing agent. For providing transfer agent services, Fund Services is entitled to receive a monthly fee, subject to certain minimum and out of pocket expenses.

U.S. Bank, N.A. (the "Custodian") provides certain custodial services to the Fund. The Custodian is entitled to receive a monthly fee, subject to certain minimum and out of pocket expenses.

Quasar Distributors, LLC (the "Distributor"), a wholly-owned broker-dealer subsidiary of Foreside Financial Group, LLC, serves as the principal underwriter and distributor of the Fund's shares pursuant to a Distribution Agreement with the Trust.

For compensation amounts paid to Fund Services and the Custodian, please refer to the Statement of Operations.

### 3. TRUSTEE AND OFFICER COMPENSATION

The Trustees of the Trust receive an annual retainer and meeting fees for meetings attended. An employee of Vigilant Compliance, LLC serves as Chief Compliance Officer of the Trust. Vigilant Compliance, LLC is compensated for the services provided to the Trust. Employees of the Trust serve as President, Chief Financial Officer, Chief Operating Officer, Assistant Treasurer, Assistant Secretary, Secretary and Director of Marketing & Business Development of the Trust. They are compensated for services provided. Certain employees of Fund Services serve as officers of the Trust. They are not compensated by the Fund or the Trust. For Trustee and Officer compensation amounts, please refer to the Statement of Operations.

### 4. PURCHASES AND SALES OF INVESTMENT SECURITIES

During the current fiscal period, aggregate purchases and sales of investment securities (excluding short-term investments and derivative transactions) of the Fund were as follows:

FUND	PURCHASES	SALES
P/E Global Enhanced International Fund . . . . .	\$ 30,715,636	\$ 825,901

There were no purchases or sales of long-term U.S. Government securities during the current fiscal period.

## NOTES TO FINANCIAL STATEMENTS (CONCLUDED) FEBRUARY 28, 2026 (UNAUDITED)

### 5. FEDERAL INCOME TAX INFORMATION

The Fund has followed the authoritative guidance on accounting for and disclosure of uncertainty in tax positions, which requires the Fund to determine whether a tax position is more likely than not to be sustained upon examination, including resolution of any related appeals or litigation processes, based on the technical merits of the position. The Fund has determined that there was no effect on the financial statements from following this authoritative guidance. In the normal course of business, the Fund is subject to examination by federal, state and local jurisdictions, where applicable, for tax years for which applicable statutes of limitations have not expired.

As of August 31, 2025, the federal tax cost and aggregate gross unrealized appreciation and depreciation of investments held by the Fund was as follows:

FUND	FEDERAL TAX COST	UNREALIZED APPRECIATION	UNREALIZED (DEPRECIATION)	NET UNREALIZED APPRECIATION/ (DEPRECIATION)
P/E Global Enhanced International Fund . .	\$ 24,943,988	\$ 4,769	\$ —	\$ 4,769

Distributions to shareholders, if any, from net investment income and realized gains are determined in accordance with federal income tax regulations, which may differ from net investment income and realized gains recognized for financial reporting purposes. Accordingly, the character of distributions and composition of net assets for tax purposes may differ from those reflected in the accompanying financial statements. To the extent these differences are permanent, such amounts are reclassified within the capital accounts based on the tax treatment; temporary differences do not require such reclassification. The difference between the book basis and the tax basis cost and aggregate gross unrealized appreciation and depreciation of investments is attributable primarily to futures regulated by Section 1256 of the Internal Revenue Code.

As of August 31, 2025, there were no permanent differences between distributable earnings/(loss) and paid in capital.

As of August 31, 2025, the components of distributable earnings on a tax basis were as follows:

FUND	UNDISTRIBUTED ORDINARY INCOME	UNDISTRIBUTED LONG-TERM CAPITAL GAINS	OTHER TEMPORARY DIFFERENCES	UNREALIZED APPRECIATION/ (DEPRECIATION)
P/E Global Enhanced International Fund . .	\$ 865,553	\$ 593,453	\$ —	\$ 4,769

The tax character of dividends and distributions paid during the fiscal year ended August 31 was as follows:

FUND	YEAR ENDED	ORDINARY INCOME	LONG-TERM GAINS	TOTAL
P/E Global Enhanced International Fund . .	2025	\$ 1,949,581	\$ 1,680,116	\$ 3,629,697

Pursuant to federal income tax rules applicable to regulated investment companies, the Fund may elect to treat certain capital losses between November 1 and August 31 and late year ordinary losses ((i) ordinary losses between January 1 and August 31, and (ii) specified ordinary and currency losses between November 1 and August 31) as occurring on the first day of the following tax year. For the fiscal year ended August 31, 2025, any amount of losses elected within the tax return will not be recognized for federal income tax purposes until September 1, 2025. As of August 31, 2025, the Fund had no tax basis qualified late-year loss deferral or Post-October capital loss.

### 6. SUBSEQUENT EVENTS

Management has evaluated the impact of all subsequent events on the Fund through the date the financial statements were issued and has determined that there were no significant events requiring recognition or disclosure in the financial statements.
